7. Summary

Research Data Management

2024: The Start of a New Era for Research Data Management

- We are no longer in an era where researchers can manage their data solely on their own.
- From 2024, research grants like KAKENHI require a research data management plan at the time of application.
- Your research contributes to global knowledge → Manage your data with a long-term perspective.
 1. Manage your data with public sharing in mind
 2. Clearly indicate usage permissions to allow reuse where possible
 3. Be mindful of copyright and privacy issues
 4. Respond promptly to inquiries about the source of your research data
- Use of repositories such as OUKA is recommended for data publication.

Image Publication and Long-term Preservation with IIF

By using the IIF framework, publication and long-term preservation can be carried out simultaneously (a feature also available in OUKA).

Topics introduced :

1. What IIF images are
2. Basic usage of IIF images
3. The potential of IIF
4. Materials and methods for creating IIF-compatible images via OUKA

Examples of Organizations Adopting IIF

Overseas

- The British Library
- The Smithsonian Institution
- The Vatican Library
- The National Library of France
- The Getty Research Institute
- Europeana, and others

In Japan

- National museums
- The National Diet Library
- The National Institute of Japanese Literature
- The University of Tokyo
- Kyoto University
- The University of Osaka
- Public libraries run by local governments, and others
