The Construction of Youth in Music Videos

ACADEMISCH PROEFSCHRIFT
ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. mr. P.F. van der Heijden
ten overstaan van een door het college voor promoties ingestelde commissie,
in het openbaar te verdedigen in de Aula der Universiteit
op dinsdag 27 juni 2006, te 10.00 uur door

Helena Ripmeester

Geboren te Amsterdam

Dutch repository network: DAREnet (19 inst.)

The screenshot shows the DAREnet website with a search interface. The search form includes fields for 'Searchterm(s)', 'Part of authorname', 'Year', 'Institute', and 'Sort on'. A red circle highlights the 'Institute' dropdown menu, which is open and shows a list of institutions. The list includes 'No preference', 'Amsterdam University Press', 'Delft University of Technology', 'Eindhoven University of Technology', 'Erasmus University Rotterdam', 'KNAW', 'Leiden University', 'Maastricht University', 'NWO', 'National Institute for Public Health and the Environment', 'Naturalis', 'Open Universiteit Nederland', 'Radboud University Nijmegen', 'Tilburg University', 'University of Amsterdam', 'University of Groningen', 'University of Twente', 'Utrecht University', 'Vrije Universiteit Amsterdam', and 'Wageningen University & Research Centre'.

Worldwide access to Dutch academic research results

DAREnet is a search service which gives free access to academic research output in the Netherlands. This is a broad collection which guarantees digital accessibility to the full text without any restrictions. DAREnet consists of 127 798 digital objects.

You can search with:

- DAREnet containing 127
- Cream of Science containing
- Promise of Science with

You can search in all Institutes or you can select 'Advanced'.

DAREnet is the result of the DAI Sciences (KNAW) and the Netherlands.

From 1 January 2007 KNAW Ra

universities, scientific institutes, KNAW and NWO prominent scientists in the Netherlands.

search for a specific author, national Library of the Netherlands, the Royal Netherlands Academy of Arts and net website.

The screenshot shows the DAREnet website with search results for 'stem cell'. The search form includes fields for 'Zoekterm(en)' and 'Universiteit van Amsterdam'. The search results are displayed in a list format, showing the title, year, author, and a link to the full text.

1 tot 6 van 6:

- Hedgehog Wntinteraction in colorectal cancer**
2006 Bink, G.R. van den, Hardwick, J.C.H.;
Gevoonden in: [bibliografische informatie](#)
- High dose chemotherapy with hematopoietic stem cell rescue for high risk breast cancer**
2003 Rodenhuis, S.; Bontenbal, M.; Beex, L.V.A.M.; Wagstaff, J.;
Gevoonden in: [bibliografische informatie](#)
- Successful autologous stem cell transplantation in a patient with chronic inflammatory demyelinating polyneuropathy [letter]**
2002 Vermeulen, M.; Oers, M.H.J. van;
Gevoonden in: [bibliografische informatie](#)
- In vitro migratory capacity of CD34(+) cells is related to hematopoietic recovery after autologous stem cell transplantation**
2001 Voermans, C.; Koo, M.L.K.; Rodenhuis, S.; Lelle, H. van der;
Gevoonden in: [bibliografische informatie](#)
- Stem cell transfusion as a new method for the incution of tolerance in organ transplantation**
1997 Vries-van der Zwan, H.M. de, Pol, M.A. van der; Besseling, A.C.; Waal, L.P. de;
Gevoonden in: [bibliografische informatie](#)
- Analysis of variation in results of CD34+ hematopoietic progenitor cell enumeration in a multicenter study**
1997 Gratama, J.W.; Kraan, J.; Levering, W.; Bockstaale, D.R. van;
Gevoonden in: [bibliografische informatie](#)

Welcome to the DRIVER Support website

Here you can access information and support relating to Open Access and digital repositories. Digital repositories can help make research information more widely available, more widely used, and improve the process of research itself. Information of interest to specific user groups is available as well as information about the DRIVER project.

This site holds details on the state of development of repositories in different European countries and how you can join this growing European network.

You may share information and news from your own country via the [DRIVER Wiki](#) and can benefit from the experience of others, and share your experiences, through the [Mentor Service](#).

You can also want to suggest events or announce news on this site that other visitors may find useful.

For access to DRIVER Tools, DRIVER Search and to access and re-use the DRIVER Infrastructure please go to the DRIVER Portal <http://www.driver-community.eu/>.

Welcome to the DRIVER website, portal to the European research information.

Please note that the portal is currently at its testing phase. It may therefore run relatively slow. DRIVER endeavours to rectify this in due course.

Use this site to access various DRIVER products and services, such as the [DRIVER Support site](#). Here you will find information about the project itself and its relevance to researchers, institutional and repository managers, funding agencies and others, as well as information about building repositories and activities in European countries. The DRIVER website also give you access to the [DRIVER Guidelines](#) and the [DRIVER web](#). The DRIVER portal offers a number of features and characteristics that are **new to the community** that will become available soon. More specifically:

Features & Characteristics:

- Advanced searching capabilities
- Use of **Collections and Communities** allowing virtual views on the data
- Personalized services that allow registered users to systematically filter their searches based on their individual research interests
- Dynamic growth of the DRIVER content by real-time repository data harvesting
- Distributed and scalable infrastructure supporting
 - dynamic deployment of DRIVER nodes and services
 - integration of external services requiring minimal effort
 - provision of existing DRIVER services to other service providers

Coming soon

- Browsing and navigating capabilities
- User and community related recommendation and alerting services
- Repository managers' tools for easy registration and data quality feedback

Search in Repositories

DRIVER Announcements

- We have built a very limited number of collections and communities for your use. Please let us know whether we can create additional ones for your research needs.
- The DRIVER (pre)-alpha release is here! Feel free to look around. Your feedback will be very much appreciated.

DRIVER Communities

- ☒ **Anonymous**
enter description
- ☒ **Anthropologists**
Researchers interested in Anthropology, the science of humankind, studying all facets of society and...
- ☒ **British Historians**
Researchers on British history.

PDF, the 'stone age' of repositories

Things we would like to see

- ▶ Covers
- ▶ Table of contents
- ▶ Abstracts
- ▶ Chapters
- ▶ Structure, links, references

DRIVER II

- ▶ European Confederation of Digital Repositories
- ▶ state-of-the-art and future-direction studies
- ▶ inclusion of non-textual and/or non-publication content
- ▶ 'enhanced publications' (presentations / datasets)
- ▶ from test-bed to production-quality infrastructure
- ▶ expand geographical coverage
- ▶ escalate dissemination, training and community building activities

Enhanced publications

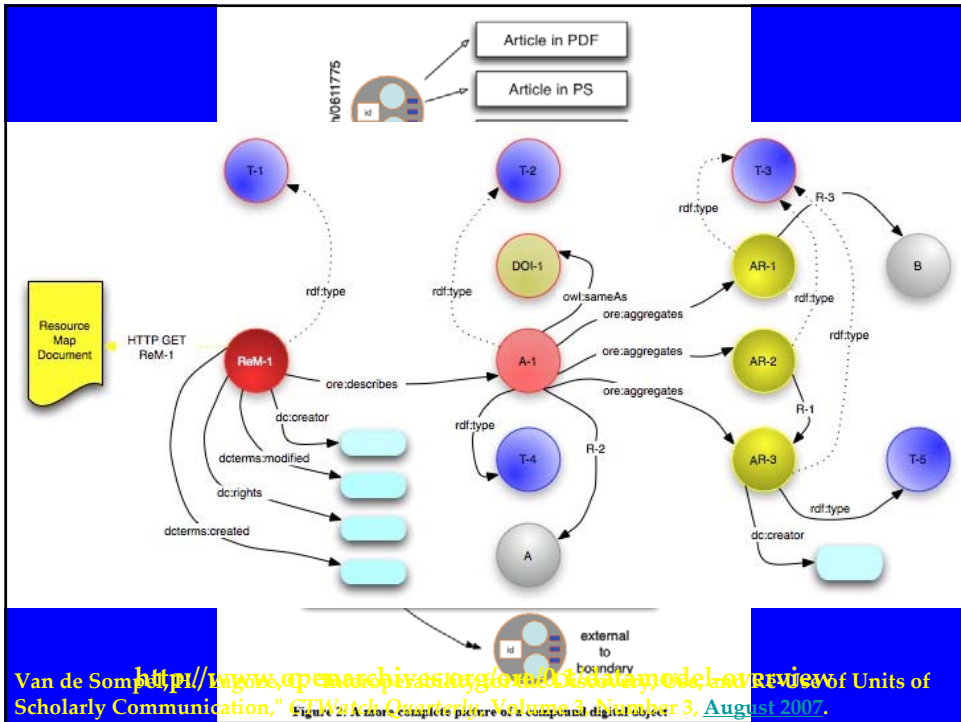

PDF is good for viewing and printing only

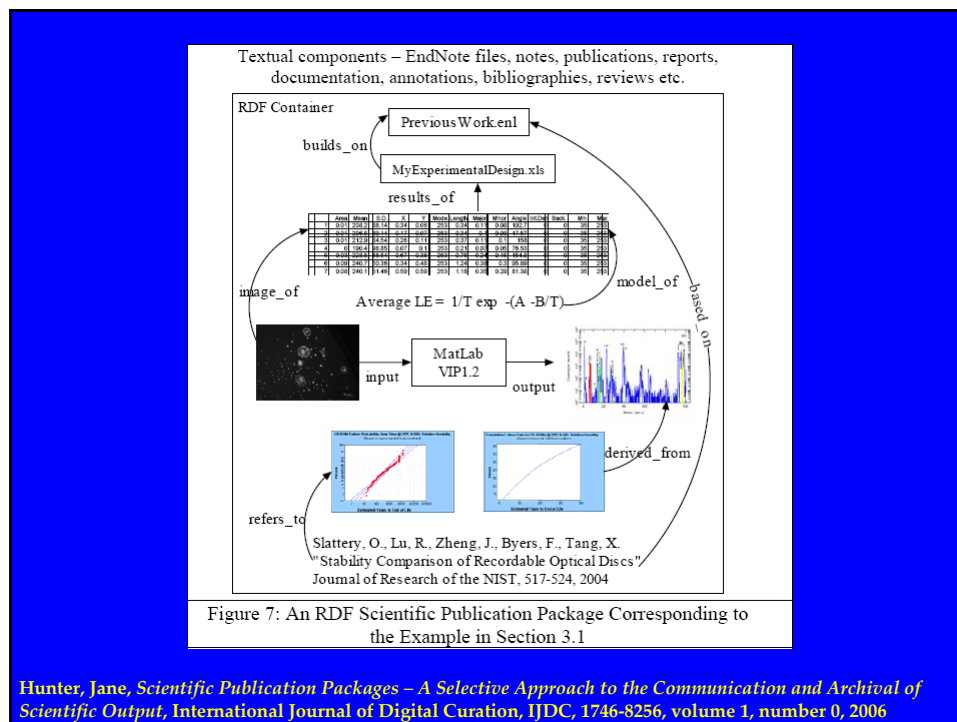

- ▶ no structure
- ▶ no components
- ▶ no 'knowledge' about the document's content (methods, citations, data)

We have to do better. Three examples

1. Information Networks (model)
2. Object Re-use and Exchange (OAI-ORE, developing standard)
3. Scientific Publication Package (experiment)

Documents → Integrated Information Networks

Persistent identifiers (NL)

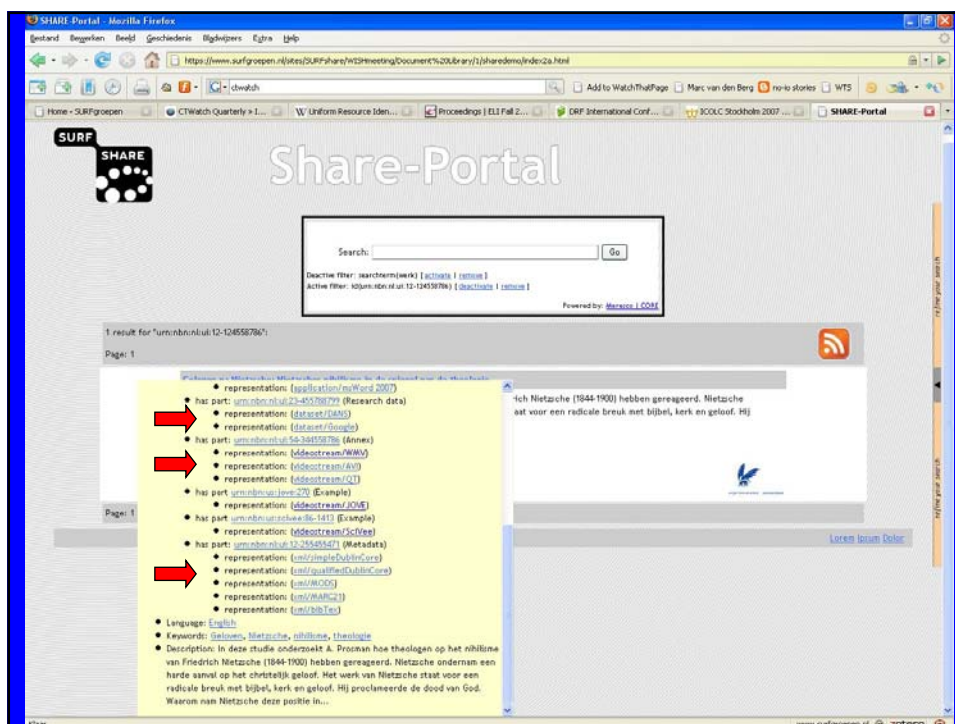

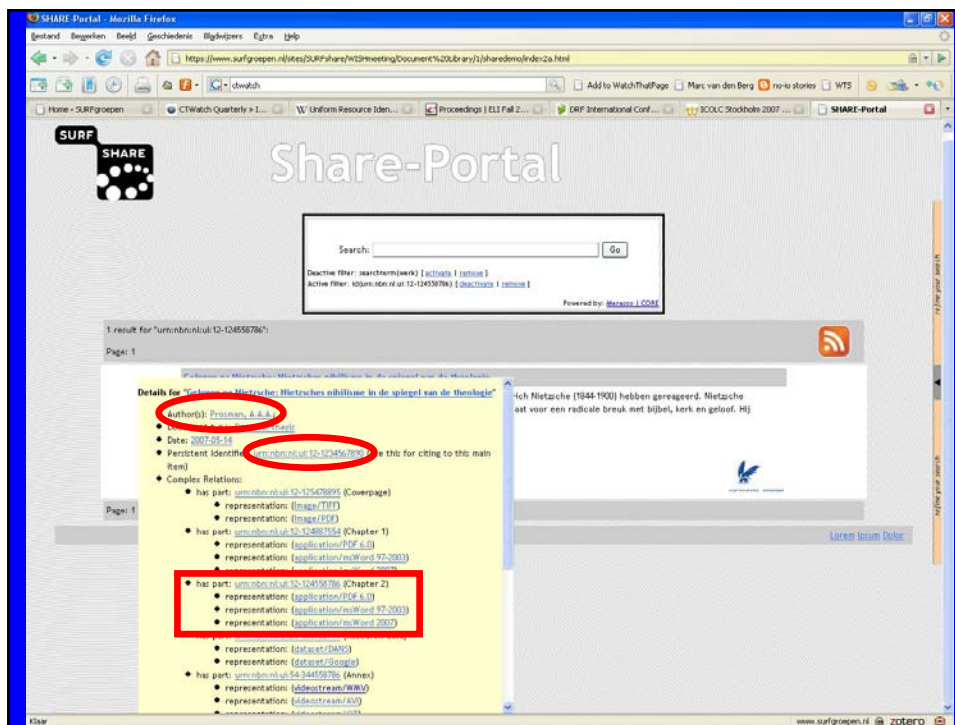

For objects: national bibliographic number (URN:NBN:nl ...)

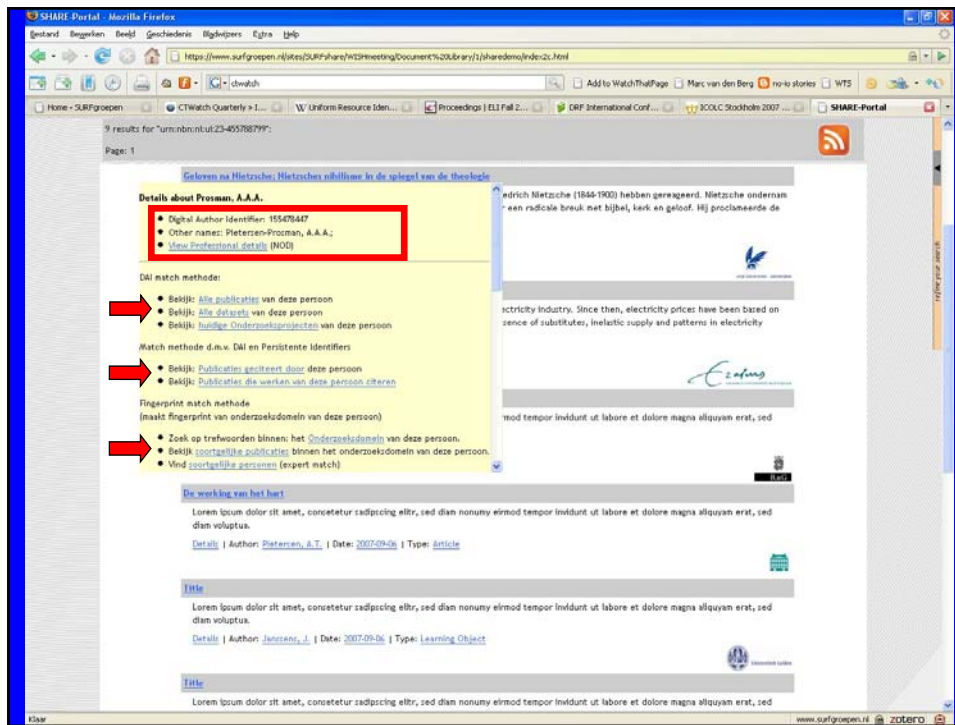

For authors: digital author identifier (DAI)

DAI = Dutch national project

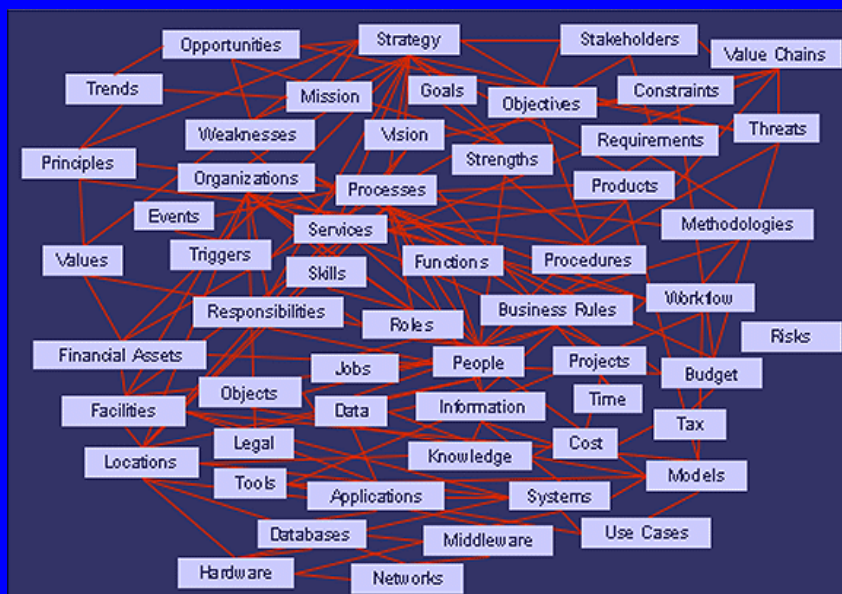

-> a unique identification for each (Dutch) researcher

- ▶ in the catalogue
- ▶ in the institutional repository
- ▶ in the Current Research Information System

To succeed we only have to manage this!

<Thank you>
