National Institute of Informatics

Competition of the " **Institutional Repositories Program (Phase II)** " has just started on 29 January 2008!!

Area 1: Construction and operation of IR
- Nationwide development of IRs

Area 2: Innovative research and development
- Activation and mutual cooperation of IRs

Three Supporting Activities by NII

Content Construction

- Digitization and supply of journal articles; CiNii/ELS
- Communication and adjustment with the other organizations

System Cooperation

- Defining standard metadata format; junii2
- Developing and providing IRs portal; JuNii+
<http://juniiplus.csc.nii.ac.jp/> (test service)

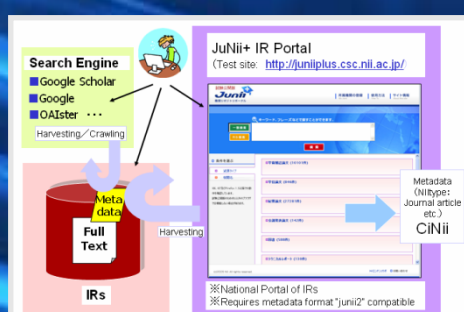

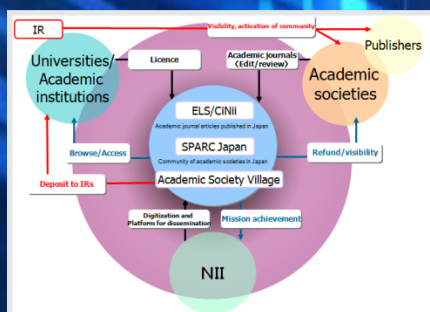

Support for Collaboration

- Training for academic portal specialist with DRF
- Seminars, workshops symposium, etc.

● Phase I : 2005-2007

- In 2005, when the CSI initiative included content services as a layer of information infrastructure for academic activities, a pilot project for institutional repositories was carried out as a joint effort of NII and nineteen universities.
- In 2006, NII began working jointly with 57 universities in the construction of a next-generation scientific information resources infrastructure.
- In 2007, 13 universities joined newly the project.

● Concept of the Phase II : 2008-2009

- The program will emphasize following resource types (Priority of resource types) such as theses and dissertations, reports and related data as results of grants-in-aid research (KAKEN-HI, COE), technical reports and departmental bulletin papers.
- Self-funded proposals will be preferred to ensure sustainability.
