Phase I: 2005-2007

- In 2005, when the CSI initiative included content services as a layer of information infrastructure for academic activities, a pilot project for institutional repositories was carried out as a joint effort of NII and nineteen universities.
- In 2006, NII began working jointly with 57 universities in the construction of a next-generation scientific information resources infrastructure.
- In 2007, 13 universities joined newly the project.

Concept of the Phase II: 2008-2009

- The program will emphasize following resource types (Priority of resource types) such as theses and dissertations, reports and related data as results of grants-in-aid research (KAKEN-HI, COE), technical reports and departmental bulletin papers.
- Self-funded proposals will be preferred to ensure sustainability.

Three Supporting Activities by NII

Content Construction
- Digitization and supply of journal articles; CiNii/ELS
- Communication and adjustment with the other organizations

System Cooperation
- Defining standard metadata format; juni2
- Developing and providing IRs portal; JuNii+
  http://juniiplus.csc.nii.ac.jp/ (test service)

Support for Collaboration
- Training for academic portal specialist with DRF
- Seminars, workshops symposium, etc.
