The University of Osaka

Preparation of Manuscripts

The authors are required to prepare the manuscripts in English, French or German and submit them with extra two copies to

Editor in Chief, Osaka Journal of Mathematics,
Department of Mathematics, Graduate School of Science, Osaka University,
1-1 Machikaneyama-cho, Toyonaka, Osaka 560-0043, Japan

Manuscripts should be typed and legible. Those prepared on TEX should be typeset in 12 point fonts with enough line intervals and margins. The authors are required to observe the following style rules:

1. Abstract or summary should not be attached. The author's address together with his (or her) affiliation is to be written on the last page after the references.

2. In the margin of the first page of the manuscript, write a proposed running head.

3. The references should be quoted by numbers, not by the abbreviations of the names or titles. In the Reference the entries should be written as in the next examples:

   [1] H.F. Baker: *On finite groups*, Canad. J. Math. **25** (1973), 35–48.
   [2] C.M. Davis: Group Theory, Springer, Berlin-Heidelberg-New York, 1965.

4. Theorem, Proposition, Lemma, Corollary should be written as **Theorem, Proposition, Lemma, Corollary** in the bold face, while Definition, Notation, Remark, Example, Acknowledgement should be written in romans as DEFINITION, NOTATION, REMARK, EXAMPLE, ACKNOWLEDGEMENT with small capitals from the second letter on Proof is written in romans.

5. Figures should be drawn in black ink and prepared in separate sheets with adequate numbering.

The authors will be required to make the marking of special letters such as boldface, script, German, Greek letters, etc. following the instruction to be mailed after their articles are accepted for publication by the editorial board.

CONTENTS

The Editors: Katsuo KAWAKUBO. i

DONG, Z.: $C_{r,p}$-capacity associated with hunt processes. 261

MA, Z.-M. and RÖCKNER, M.: Construction of diffusions on configuration spaces. 273

TRUTNAU, G.: Stochastic calculus of generalized Dirichlet forms and applications to stochastic differential equations in infinite dimensions. 315

KUO, C.-C.: Periodic solutions of a two-point boundary value problem at resonance. 345

TAKESHIMA, M.: Behavior of 1-dimensional reinforced random walk. 355

GANIKHODJAEV, N and ROZIKOV, U.: On disordered phase in the ferromagnetic potts model on the bethe lattice. 373

MORITA, Y.: Quantum deformations of certain prehomogeneous vector spaces. II. 385

SAKAI, F. and TONO, K.: Rational cuspidal curves of type $(d, d-2)$ with one or two cusps. 405

MATUMOTO, T. and NAKAGAWA, N.: Explicit description of Hopf surfaces and their automorphism groups. 417

NAGAMI, S.: Existence of spin structures on double branched covering spaces over four-manifolds. 425

NAKAMURA, T.: Four-genus and unknotting number of positive knots and links. 441

PETRONIO, C. and WEEKS, J.R.: Partially flat ideal triangulations of cusped hyperbolic 3-manifolds. 453

KOISO, N.: Convergence towards an elastica in a riemannian manifold. 467

CHOE, Y.-W., KI, U-H. and TAKAGI, R.: Compact minimal generic submanifolds with parallel normal section in a complex projective space. 489

UOHASHI, K., OHARA, A. and FUJII, T.: 1-conformally flat statistical submanifolds. 501

SHIMA, H. and H, J.-H.: Geometry associated with normal distributions. 509

RANJAN, A. and SANTHANAM, G.: Correction to "The first eigenvalue of p-manifolds". 519
