Osaka University

Preparation of Manuscripts

The authors are required to prepare the manuscripts in English, French or German and submit them with extra two copies to

Editor in Chief, Osaka Journal of Mathematics,
Department of Mathematics, Graduate School of Science, Osaka University,
1-1 Machikaneyama-cho, Toyonaka, Osaka 560, Japan

Manuscripts should be typed and legible. Those prepared on T_EX should be typeset in 12 point fonts with enough line intervals and margins. The authors are required to observe the following style rules:

1. Abstract or summary should not be attached. The author's address together with his (or her) affiliation is to be written on the last page after the references.
2. In the margin of the first page of the manuscript, write a proposed running head.
3. The references should be quoted by numbers, not by the abbreviations of the names or titles. In the Reference the entries should be written as in the next examples:

- [1] H.F. Bæcker: *On finite groups*, Canada. J. Math. **25** (1973), 35–48.
- [2] C.M. Davis: *Group theory*, Springer, Berlin-Heidelberg-New York, 1965.

4. Theorem, Proposition, Lemma, Corollary should be written as **Theorem**, **Proposition**, **Lemma**, **Corollary** in the bold face, while Definition, Notation, Remark, Example, Acknowledgement should be written in romans as DEFINITION, NOTATION, REMARK, EXAMPLE, ACKNOWLEDGEMENT with small capitals from the second letter on Proof is written in romans.
5. Figures should be drawn in black ink and prepared in separate sheets with adequate numbering.

The authors will be required to make the marking of special letters such as boldface, script, German, Greek letters, etc. following the instruction to be mailed after their articles are accepted for publication by the editorial board.

CONTENTS

JÄGER, W. and SAITÔ, Y.: The reduced wave equation in layered materials.	267
MEI, M.: Stability of traveling wave solutions for non-convex equations of barotropic viscous gas.	303
KIKUCHI, K. and NEGORO, A.: On Markov process generated by pseudo-differential operator of variable order.	319
HANAKI, A. and ÔKUYAMA, T.: Groups with some combinatorial properties.	337
HANAKI, A.: Self dual groups of order p^5 (p an odd prime).	357
YOSHIMURA, H.: On regular rings whose cyclic faithful modules contain generators.	363
AL-ATTAS, A.O. and VANAJA, N.: Direct sum of local modules with extending factor modules.	381
ZUCCONI, F.: Surfaces with canonical map of degree three and $K^2 = 3p_g - 5$.	411
PRADEEP, C.R. and SHASTRI, A.R.: On rationality of logarithmic \mathbb{Q} -homology planes-I.	429
OREVKOV, S.Y.: Acyclic algebraic surfaces bounded by seifert spheres.	457
ISHIBE, K.: The casson-walker invariant for branched cyclic covers of S^3 branched over a doubled knot.	481
HEATH, D.J.: On classification of Heegaard splittings.	497
