Manuscripts should be typed and legible. Those prepared on TEX should be typeset in 12 point fonts with enough line intervals and margins. The authors are required to observe the following style rules:

3. The references should be quoted by numbers, not by the abbreviations of the names or titles. In the Reference the entries should be written as in the next examples:

   [1] H.F. Baker: *On finite groups,* Canad. J. Math. **25** (1973), 35-48.
   [2] C.M. Davis: Group Theory, Springer, Berlin-Heidelberg-New York, 1965.

4. Theorem, Proposition, Lemma, Corollary should be written as **Theorem, Proposition, Lemma, Corollary** in the bold face, while Definition, Notation, Remark, Example, Acknowledgement should be written in romans as DEFINITION, NOTATION, REMARK, EXAMPLE, ACKNOWLEDGEMENT with small capitals from the second letter on Proof is written in romans.
