Correction to "ON COMMUTOR RINGS AND GALOIS THEORY OF SEPARABLE ALGEBRAS"

TERUO KANZAKI

This Journal Vol. 1 (1964), 103–115

(Received November 2, 1964)

The following correction should be made.

P. 109, line 9, from the bottom. "the center of Γ" should be "the center of the ring Γ_r of right multiplication by elements of Γ in $\mathrm{Hom}_R(\Lambda, \Lambda)$".

P. 112, line 10. Insert "and (♯)" after "By Proposition 4".

REMARK. Let Λ and Γ be R-algebras, Λ a Galois extension of Γ, and let Γ be separable over R. Then the center of $\Delta(\Lambda, G)$ and the center of Γ (regarding Γ as a subalgebra of $\Delta(\Lambda, G)$) coincide, if one of the following conditions holds; 1) the condition (♯) in § 3 holds, 2) the center of $\Delta(\Lambda, G)$ is contained in Λ, or 3) the center of Γ is contained in the center of Λ.
