The following correction should be made.
P. 109, line 9, from the bottom. "the center of $\Gamma$" should be "the center of the ring $\Gamma_r$ of right multiplication by elements of $\Gamma$ in $\text{Hom}_R(\Lambda, \Lambda)$".
P. 112, line 10. Insert "and (\#)" after "By Proposition 4".

**REMARK.** Let $\Lambda$ and $\Gamma$ be $R$-algebras, $\Lambda$ a Galois extension of $\Gamma$, and let $\Gamma$ be separable over $R$. Then the center of $\Delta(\Lambda, G)$ and the center of $\Gamma$ (regarding $\Gamma$ as a subalgebra of $\Delta(\Lambda, G)$) coincide, if one of the following conditions holds; 1) the condition (\#) in §3 holds, 2) the center of $\Delta(\Lambda, G)$ is contained in $\Lambda$, or 3) the center of $\Gamma$ is contained in the center of $\Lambda$. 

Correction to  

"ON COMMUTOR RINGS AND GALOIS THEORY OF SEPARABLE ALGEBRAS"
