Osaka University

## 利用学生の声

\*\*\*\*\*

I often go to the Cybermedia Center in order to use a computer. Osaka University offers us with various language learning contents through the Internet. I use those contents in the Cybermedia Center because there is a pair of headphones for each computer which is prepared for language learning. Also, in my English class students learn English using a computer. The computer is helpful for our learning because we can do our homework when we have free time. Actually, I often do my homework in the Cybermedia Center. The Cybermedia Center is suited for learning a language through the Internet. In addition, in the Cybermedia Center the students can print a paper for free. I do not have a printer, so it is very convenient for me to print a paper which I have to hand in. The Cybermedia Center is a good place for our learning.

(文学部・安藤 歴)

サイバーメディアセンターが開館している間は自由に端末を使う事ができるので、レポートを書く時や講義で気になることを調べる時は非常に役立った。自分はこれまでパソコンに触れる機会が少なくパソコンに苦手意識があったが、大学生になるとパソコンでレポートを作成することや、課題をすることをしなければならぬので、これからのためにもパソコンに接するという点で自分にとってはいい機会を得ることができた。さらに、コピー機のある教室もあり、気になる資料をすぐに印刷できるのはありがたかった。また、語学の講義でサイバーメディアセンターを利用することがあったが、二台に一つずつモニターがついているので普通の講義室のスクリーンと比較した時にどの席でも資料が見やすかったのが良かった。一方で、私はよく利用するのでもう少し開放教室の数を増やし開館時間を長くして欲しく思った。

As a freshman in Osaka University, I have taken two classes in the Cybermedia Center, one of which was Mr. Murakami-Smith's English Writing class. Unlike the writing class I had imagined, this class has used computers effectively in education system. We never have written essays on paper; we took our classes and submitted our essays by using CLE in the Cybermedia Center. It is highly recommended because it is far more approachable to anyone in the class rather than the traditional style of teaching; it was convenient to read and type through CLE using Internet. With only a personal ID, you can access to class database whenever you want.

In the University library there are not enough computers, and sometimes there is a possibility of not being able to use them. For this reason, The Cybermedia Center is indispensable to library, because you can use school's Digital Library System. There are sufficient numbers of computers, which are enough for students who want to use the Center.

In summary, Osaka University has succeeded in plans to keep pace with communication technology development in recent years. In future, I believe the Center will lead Osaka university students into new cyber space, contributing to university's technological and communicative development.
