利用学生の声

私が初めてサイバーメディアセンターを利用したのは情報の授業のときだった。情報教室というと高校や中学の小さなパソコン室を想像していた私は、まずサイバーメディアセンターの規模の大きさに驚いた。各階に情報教室や CALL 教室などの用途に合わせた部屋があり、そして各部屋には 1 人につき 1 つ割り当てても余るくらいのパソコンと 2 人に 1 つのサブディスプレイがあるため教員の指示が明確に生徒に伝わり、難しい指示でも理解するのは容易であった。私は情報の授業や英語の授業、また自習するときなどに様々な部屋を使用した。どの部屋も環境が綺麗に整備されており快適に学習することができたのも印象に残っている。特に CALL 教室での Writing の授業では、英文の作成や提出といった全ての作業をパソコン上で行うため、インターネット上のネイティブの英文を検索し、それをもとに自分の作成した英文を修正できるという点で大変便利だった。サイバーメディアセンターは学生の学びの質を向上してくれる場であり、もっと多く活用されるべきだと思う。

(基礎工学部・組 泰樹)

Good points of the Cybermedia Center classrooms:

* Comfortable, overall

I took the course of training for becoming an interpreter, and the classroom was at Cybermedia Center. The learning environment was pretty good. I liked it.

* Rooms, computers, and keyboards are always clean and very easy to use.

* During class, being able to see instructor's screen was very helpful. I thought this was an amazing system and learning environment for students.

Bad points of the Cybermedia Center classrooms:

* Some of the computers are too slow and don't do anything for a little while.

* Takes too long to load memory sticks.

* When we visit KOAN, it sometimes gets SUPER SLOW and takes too long. (I guess it's because everybody in the room is visiting at the same time.)

(外国語学部・森脇 リカ)

I want to talk about Cybermedia Center in Osaka University. I used the Cybermedia Center when I took an English writing class and an information class during the first semester. I was surprised at first because the facilities were so good to use. I want to introduce my experience about that.

When I was a student in Korea, I took lots of classes about computers, because almost all Korean schools adopt computer classes as one of the important curricula. But there were not any assistant monitors for students. There was

only one large screen at the front of the media center classroom. It was hard to concentrate on the class because I had to check the front monitor every time.

As many students already know, in the Cybermedia Center classrooms, there are monitors between the monitors which are used by students. When I took a class in that classroom, at first, I was really surprised because there were second monitors. They were useful and helpful for me to keep up with class. I did not need to check the front monitor. In my opinion, our Cybermedia Center is handy for students to use.

Another point which I was surprised is that I could even print out the report or resume freely. I think it is a really good system for students. Especially during the first semester, I took many classes which required printing out the resume. At that time, I used printers set up in the Cybermedia Center. Thanks to them, I could save my time and even money.

I think every facility at the university has to be useful and efficient for students to use because users who use them directly are students. In that view, Cybermedia Center is good to use, and has a pleasant environment. For these reasons, I am looking forward to taking a class in the Cybermedia Center again.
